

# PFAS

Conference@FU-Berlin

## Avoidable, Replaceable, Indispensable?!

Against the backdrop of the **European Union's** efforts to **regulate** the class of per- and polyfluoroalkyl substances (**PFAS**), we invite stakeholders from **science, industry, authorities**, and other relevant institutes to jointly discuss the contentious issues surrounding PFAS and how to address them in the future. We aim to explore this controversial topic from multiple perspectives at the **conference** and foster a well-informed professional dialogue. To this end, the invited speakers will highlight various applications where PFAS may be **avoidable, replaceable, or indispensable**.

## With the Participation of

Bruno Ameduri (Institut Charles Gerhardt Montpellier)  
Frank Sacher (TZW Technologiezentrum Wasser)  
Pierangelo Metrangolo (Politecnico Milano, Italy)  
Stefan Elbel (Technische Universität Berlin)  
Ingo Valentin (Stadtverwaltung Düsseldorf)  
Peer Kirsch (Merck Electronics KGaA)  
Gerd Hamscher (Universität Gießen)  
Martin Scheringer (ETH Zürich)  
Uwe Hamm (Carl Zeiss GmbH)  
Michael Schlipf (FPS GmbH)  
Christian Unkelbach (BAuA)  
Jan Koschorreck (UBA)  
Sabrina Kröger (BASF)

...

**APRIL 7 - 8**  
**2025**  
**free of charge**

**FU-Berlin, Arnimallee 22, Lecture Hall A (B.006)**
